

# EUNIAS MUBELWA NTANGEKI

## Assistant Medical Officer

ELCT BUKOBA TOWN HEALTH CENTER

## About Me

Was born in the village with no health facility nearby in order to get medical service we were supposed to walk or use Asian bicycles due to poor infrastructure which was taking 3 hours to reach the health facility, was inspired to become a doctor at 13 years old after suffering from malaria and carried to the health facility, I was received with health care workers they were very smart with white coats, gown and shoes. From there came up with a dream of becoming a doctor.

I shift to small town for my secondary education, studied hard because of my dream of becoming a doctor and was able to join Collage for Clinical Medicine education. Then after graduating worked with ELCT (Church) for more than 15 years as Clinical officer, went back to collage for Advanced diploma in Clinical medicine and surgery after graduating on 2011 was allocated to ELCT Bukoba Town Health Center until now.
